

## God's People Lack Purity

God is all-powerful which means there is no shortage of Divine Power in the world, but there is a shortage of human purity. God's power follows purity. He is looking for people with pure hearts to fill them with His power. If you want to see transforming revival in your life so that you operate in God's power, ask God to show you anything you have done, said or thought that has offended Him so that you can repent (Ps 139:24) and move toward greater purity and righteousness in your life. Let God free you from what binds you so you can take hold of what He has already given you when you were saved. Let the power of the living God break every chain that binds you emotionally or physically. I challenge you to spend the next 15 minutes seeking God for greater purity in your life.
